Research - First Look to Commercial Financing

STEP -1: First Look while creating opportunities:

First look is an introduction to potential opportunities and process management requirements (concept and financial engineering), while collecting infrastructure data, Government incentives (and programs) and developing unconventional methods for continuous participation in local opportunities. Concept engineering includes a due-diligence (technical and economical feasibility) while creating *captive opportunities* for the beneficiaries; risk Partners and MMC Ontario (an investment holding company).

First look to Team building and identifying roles and responsibilities is lead by Nuworld, funded by beneficiaries - Technology and Risk partners (such as *Developers, Entrepreneurs, Investors, Financiers, Systems Integrators, OEM etc.*)

Concept – Solar Power Supply

MADANMOHAN CHAWLA
 Advisor and Risk Partner
 (Ontario / USA and India)
 Cell: (416) 605-1518

**IF YOU ARE READY? - SKIP STEP -2
 IN-DEPTH ANALYSIS FOR PARTNERSHIP DEVELOPMENT AND
 GO TO STEP -3, COMMERCIAL FINANCING.**

STEP - 2: In-depth Analysis for Partnership Development

We provide process management support services to technology and risk partners, market intelligence, while developing investment options and unconventional market entry methods for go or no-go scenarios. We verify the technical and economical viability of identified and captive opportunities for the beneficiaries, risk partners and MMC Ontario (an investment holding company).

In-depth Analysis is lead by Technology partner (System Integrator, OEM, Manufacturers) and cost shared with risk partners.

STEP - 3: Commercial Financing

We provide process management support services to technology and risk partners. Commercial financing (50 - 75% of sales) by IFI, EDC and commercial banks is subject to financial strength of the buyers. Commercial Financing is lead by Risk partner, System Integrator, Manufacturer or Technology partners.
