

GOVERNMENT PROGRAMS & LINKS

We specialize in "On-Site" process management support services that help emerging technology companies or small to medium size business (SMB) to access Government programs and funding support.

"On-site" Expertise helps SMB's from initial risk assessment, pre-qualifications, monitoring, executing approved program and reporting as per the mandate of the funding programs. To ensure effective results we stay involved from concept to completion. For further information, please email your requirements to:

mmcgroup@nuworldresearch.com
